THE DAY, MAPPED

Six picks, in Eastern time

- **keynote**, likeliest on the broadcast
- **breakout**, on the schedule, stream unconfirmed

> **ALSO AT 2:45**
> **Austin Parker** (Honeycomb), "What Your MCP Server Does When Nobody's Looking" · **Michael Grinich**, "Auth.md"

Source: Linux Foundation AGNTCon + MCPCon NA schedule, 2026 (ET = PDT + 3).

WHY NOW

Where each pick meets the roadmap

ROADMAP PRIORITIES

	12:30 Soria Parra · co-author of the roadmap
Agentic messaging	5:55 McCaffrey · Agentic Messaging Primitives (alternate)
HTTP-native transport (incl. local servers)	
Agent identity + enterprise security	1:35 Parecki; 5:20 Delimarsky
Better primitives	
SDK experience	

OUTSIDE THE SPEC

- 2:45 Horthy · verifiers
- 4:30 Song · agent safety research
- 5:00 Drasner · WebMCP (W3C incubation)

Source: MCP blog, "The New MCP Roadmap", Aug 2026; LF schedule, 2026.

WHAT TO HEAR

What to listen for

- [ ] 12:30 **Soria Parra**
  What comes after stateless?

- [ ] 1:35 **Parecki**
  How a client proves who it is

- [ ] 2:45 **Horthy**
  A verifier beyond "tests pass"

- [ ] 4:30 **Song**
  What "safe and secure" requires of agents

- [ ] 5:00 **Drasner**
  WebMCP, and who it's for

- [ ] 5:20 **Delimarsky**
  Tool output as untrusted input

Also on the schedule, if the stream carries it: 2:10 A2A v1 Deep Dive · 5:55 Agentic Messaging Primitives · 6:30 MCP Rug Pulls in the Wild

Which hour are you blocking out?
