01 · BEFORE

Before: a person logs in

01 Data vendor

↓

02 Analyst seat — priced per seat

↓

03 Spreadsheet

↓

04 Partner's inbox

> The listing's words: ‘spreadsheets, gut feel and endless inbox triage.’

Source: Deal Flow listing (Luma), 2026.

02 · AFTER

After: an agent calls the data

01 Data vendor

↓

02 **MCP plug** priced per call (akta.pro)

↓

03 Agent

↓

04 **Person approves**

Affinity: nothing reaches the CRM until someone approves

Sources: Affinity support docs, 2026; akta.pro on Product Hunt, 2026.

Four vendors, about five months

○ hollow = single secondary source

JUL 2025
PitchBook access deals with 4 AI companies

MAY
Affinity MCP server

JUL
Affinity Ascend agents

SEP
Carta workflows in Claude Desktop

OCT 14
PitchBook Data MCP (reported)

MAY → OCT 2026

If data's a plug, where's the edge?

Firm's own context ?

Judgment ?

Workflow ?

Data (one plug away?)

or coverage still decides
