*The gap breathes. On the hardest agentic work, closed still leads:
TerminalBench Hard 54–61% closed vs 43–46% open.*

Scores aren't comparable across index versions; the gap is. Kimi K3 scored 44 on v4.3. TerminalBench Hard: Artificial Analysis, Apr 30.

Which step needs the frontier?

Closed tokens cost about 7.8x more. Which parts of your agent actually earn that?
