

# From one-brand kitchen to **shared pantry**

## THEN · THE SUITE

Email

Forms

Rule-based  
scoring

CRM sync

Every appliance from one vendor. Integrated, but only with itself.

## NOW · COMPOSABLE

Enrichment

Scoring

Orchestration

Paid ads

**PANTRY**  
CRM or  
warehouse

Email

Events

Direct mail

AEO

Stations around one pantry, the source of truth. Agents are line cooks: any station works, if the pantry is labeled.

**26.9% → 17.4%**

CDPs as the center of B2C stacks, as functions moved into the warehouse or engagement platforms

Source: eMarketer, "FAQ on martech," Feb 2026. Kitchen framing is illustrative.

# Three steps, three old habits

## FIND

WHO

Buying committees at target accounts;  
inbound leads enriched on arrival

### Retires

Bought static lists + a separate enrichment  
vendor + manual lookups

## PRIORITIZE

WHO FIRST

Account and lead scores written in plain  
language; personas update as data changes

### Retires

Point rules: +10 for a VP title, +5 per pricing-  
page visit

## ACTIVATE

DO SOMETHING

One list to paid ads, outbound email, events,  
direct mail and landing pages, synced to the  
CRM

### Retires

A CSV export and re-upload for every channel

all three sit on one shared data layer

Agenda: clay.com livestream page. "Retires" column is an illustrative category mapping; which tools Verkada, Pendo and ElevenLabs actually cut is an open Q&A question.

# Four bids for the same layer

MEANWHILE, AT THE STATIONS

# Eight weeks: channels opened to agents

- JUL 14 · CLAY  
MCP for Reps · Clay functions usable inside AI tools
- JUL 16 · META  
Ads MCP server · outside agents create and manage campaigns
- JUL 23 · HUBSPOT  
Agent Hub + Agent Builder · public beta
- SEP 8 · MAGNITE  
First agentic CTV campaign in EMEA · with Amnet France
- SEP 9 · PROFOUND  
Answer engines personalize by who's asking · 71,147 responses studied

If any agent can work the station, what  
stays scarce: **the pantry, or knowing what  
to cook?**
