What Ask Attio reads, proposes, and won't

READS · as you

- Records and lists
- Notes
- Calendar events
- Call recordings and transcripts
- Emails you can access
- Members and teams
- The web

PROPOSES · you approve

- Create or update records
- Create, edit or delete notes and tasks
- Build or change workflows
- Draft emails

"All suggested changes require your approval before being applied."

WON'T

- Send an email on its own
- Apply a change without approval
- See data your permissions hide

NOT LISTED · ask Tuesday

- Create or save a view
- Build a report or chart

Absent from the page. Not a confirmed limitation.

Who computes the number?

FORMULA ATTRIBUTE

Calculates on each record, like a spreadsheet cell. Same inputs, same answer.

deterministic · shipped Jul 28, 2026

REPORT

Rolls many records up into totals and charts.

deterministic over what's in the CRM ·
Reporting 2.0, May 2024

MODEL (ASK ATTIO)

Reads a plain-English question, then answers from the records it can see.

models: Anthropic, Google, OpenAI or Auto ·
which path a chat number takes = open question

SAME QUESTION, TWO PERMISSION SCOPES (illustrative)

"What's in Q4
pipeline?"

MANAGER asks

answer from the whole team's deals

REP asks

answer from the rep's own deals

Build the view, or only read it?
