

PRE-EVENT · THE LINEUP AS ONE SYSTEM

Six demos. One content supply chain.

NYC AI Demos #11 · Media · The Refinery at Domino,
Brooklyn · Oct 1

WHERE THE CAPITAL IS GOING

AI-search visibility: \$1B → \$1.8B in 7 months

Profound: software that tracks whether AI chatbots cite a brand (AEO / GEO).

Named in Gartner and Forrester AEO reports, Sept 2026.

Sources: Fortune, Feb 24 2026; The AI Insider, Sept 16 2026

THE CHAIN, WITH THE BUYER UNDER EACH LINK

Five links, five buyers

Lineup per event invite (luma.com/nyc11); roles per company sites; buyer mapping is the author's read

The links are reaching into each other

- 1 Markup AI → Profound's link:** scores AI-search readiness before publish
- 2 Profound → Air's link:** AI Marketer now generates images (Sept 2026)
- 3 Kargo → Profound's link:** places branded content inside ChatGPT answers

Yet enterprises run a median of **14 generative models** (a16z).
Specialists persist at the model layer.

THE OPEN QUESTION

Which link keeps the human sign-off?

PATH A

One
platform,
one buyer

PATH B

Five tools,
sold five
times
