FOUNDER GTM MIXER · NYC · OCT 13

Who brought the first users?

Before any channel exists: the launch, the audience, or the workflow?

Alex Yedi

AIDENT AI · DEC 2025 → NOW

Two launches. Then a new product.

DEC 23, 2025 · PRODUCT HUNT

#3 of the day

Playbooks: plain-English automations across 250+ tools

MAR 5, 2026 · PRODUCT HUNT

#1 Product of the Day

Aident AI Beta 2, about ten weeks later

TODAY · AIDENT.AI

Loadout

An MCP layer that plugs coding agents into 1,000+ apps

AIDENT SAYS 0 → 18,000 users in three months

Sources: Product Hunt 2026 · aident.ai 2026 · Luma event page 2026 (user count is the company's claim)

AI APPS VS NON-AI APPS · 2026

AI wins the trial, loses the year

AI apps Non-AI apps

Trial converts to paid

Still subscribed after one year

A launch fills the top. The year decides.

Source: RevenueCat 2026 subscription data, via TechCrunch, 2026 (medians)

HOW TO TELL THEM APART

Three suspects, three fingerprints

SIGNUP → ACTIVATED → RETAINED

Launch

SHOWS IN SIGNUPS

What share arrived in the **launch window**, versus before and after it?

Audience

DISTRIBUTION

Did the people who came for Playbooks **follow the move** to Loadout?

Workflow

SHOWS IN RETENTION

Who is still active at **day 90**, and what job brought them back?

Framework: Alex Yedi · denominator terms: signup, activation, retention

THE OPEN QUESTION

New product. Same users?

Which of the three held?

Alex Yedi
