

Own the stack.

Four talks. One move: stop *renting* your AI stack and start *owning* it — one layer at a time.

01 Model

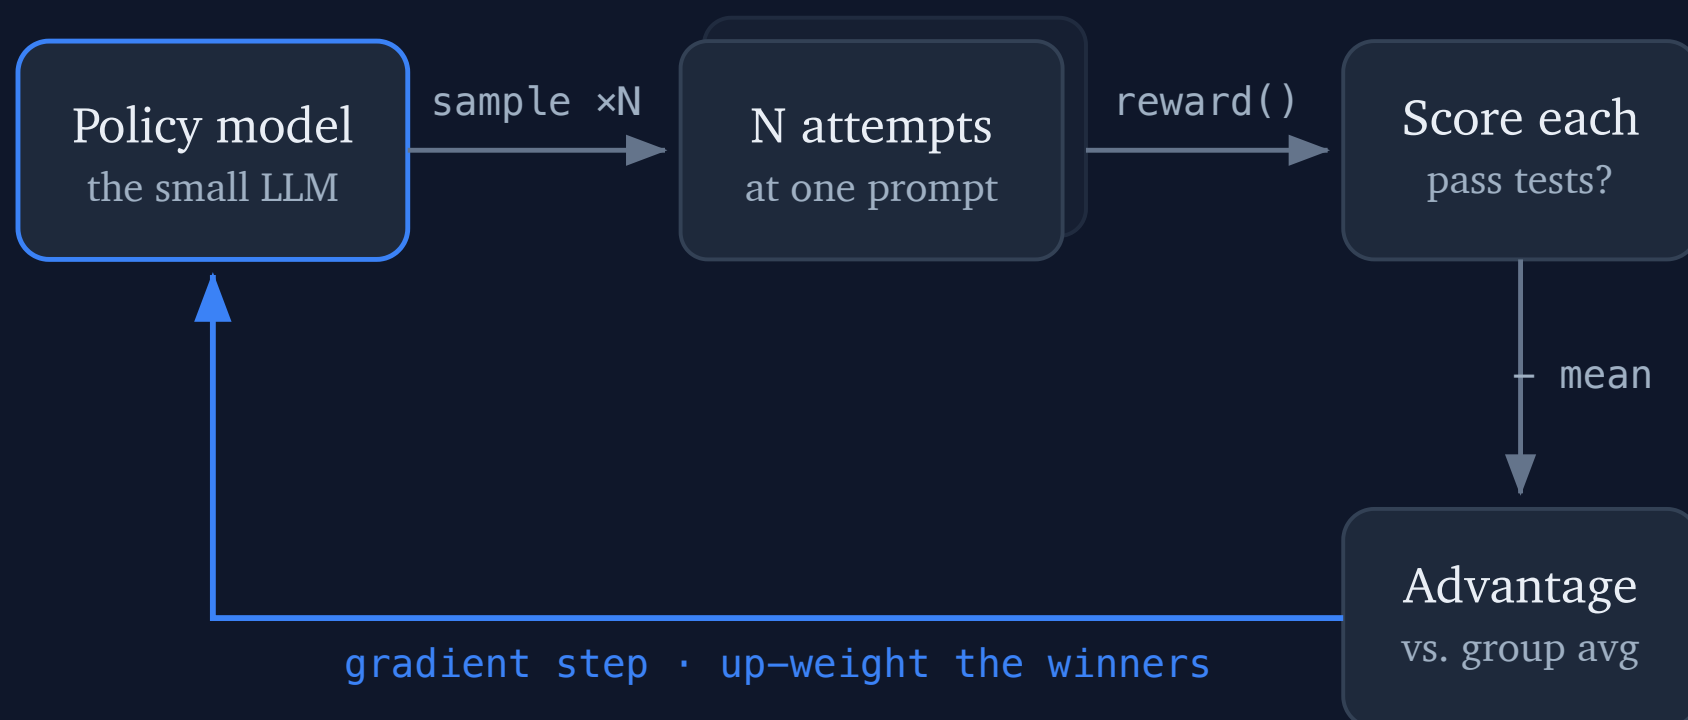

02 Environment

03 Harness

04 Factory

Own the intelligence.

Daniel Graviat · Daytona

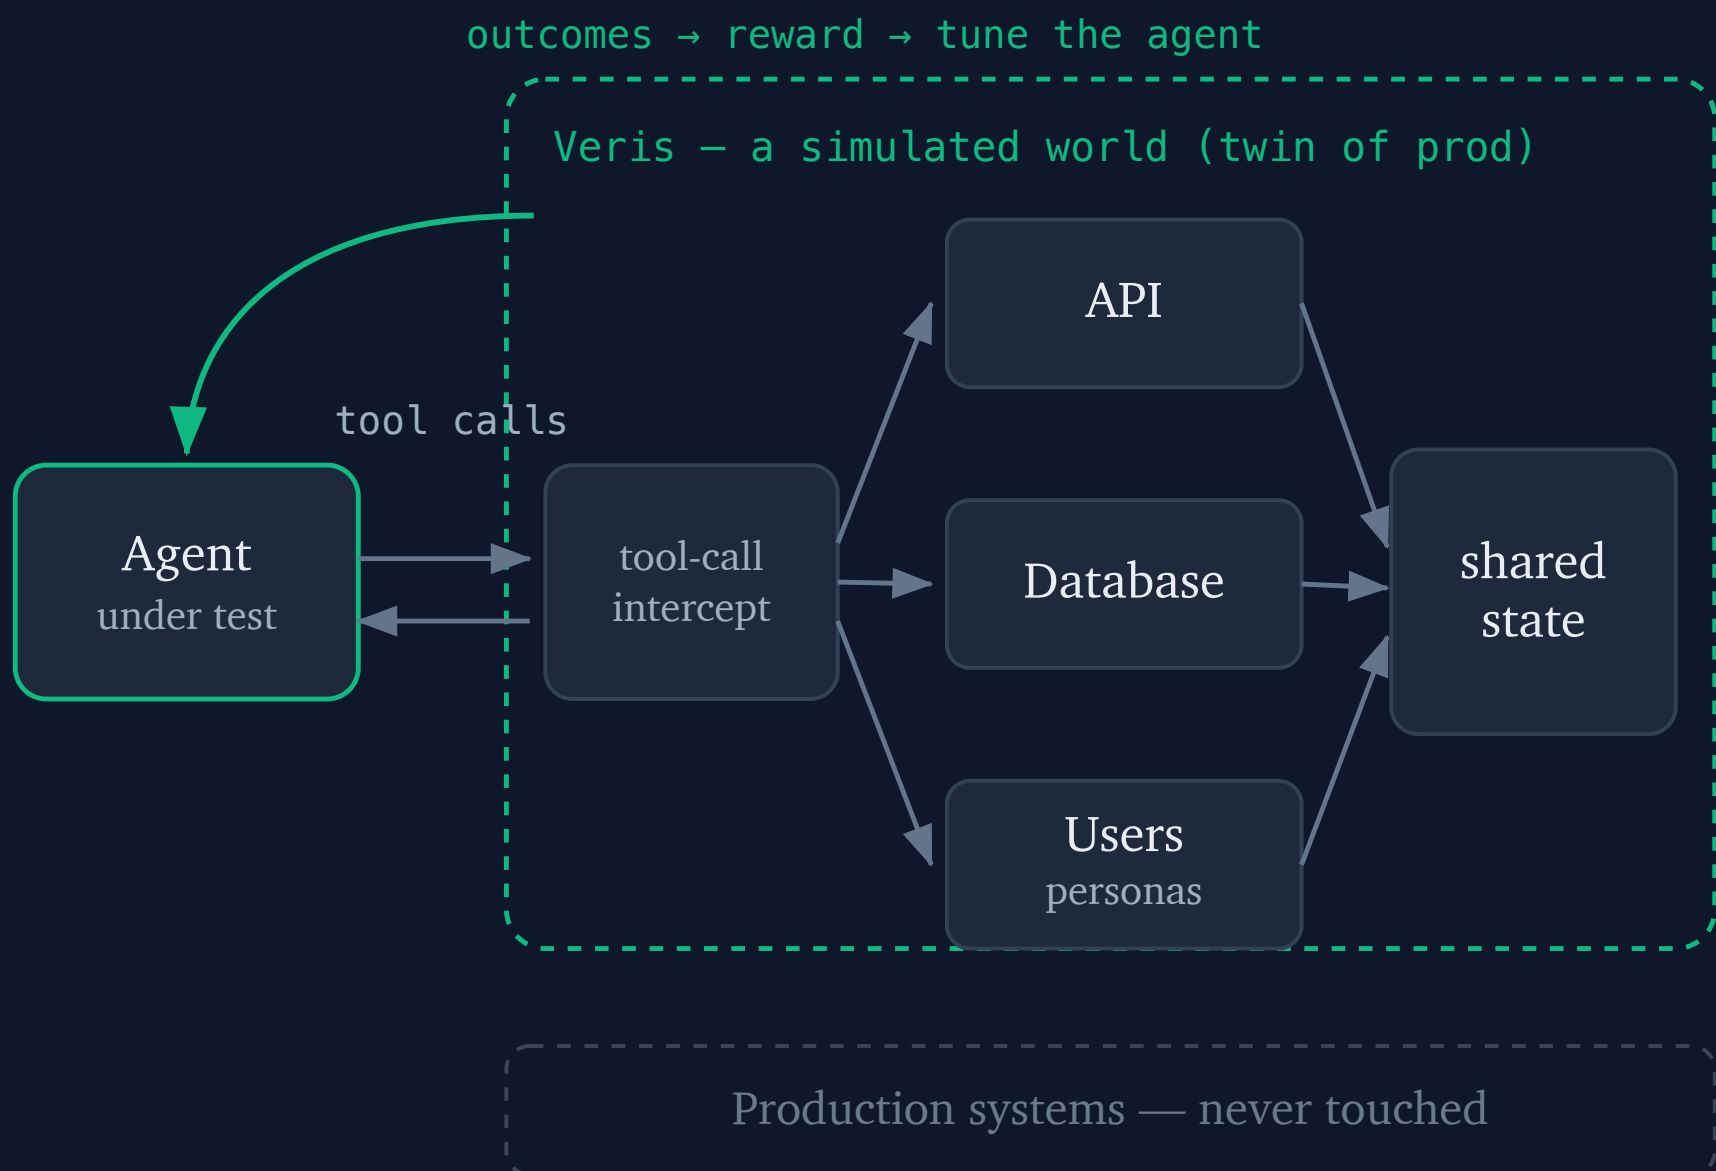

The trick: **no critic network.**

The group's own average is the baseline — the cost saving vs. PPO.

02 · THE ENVIRONMENT — a simulated world

Own the world it learns in.

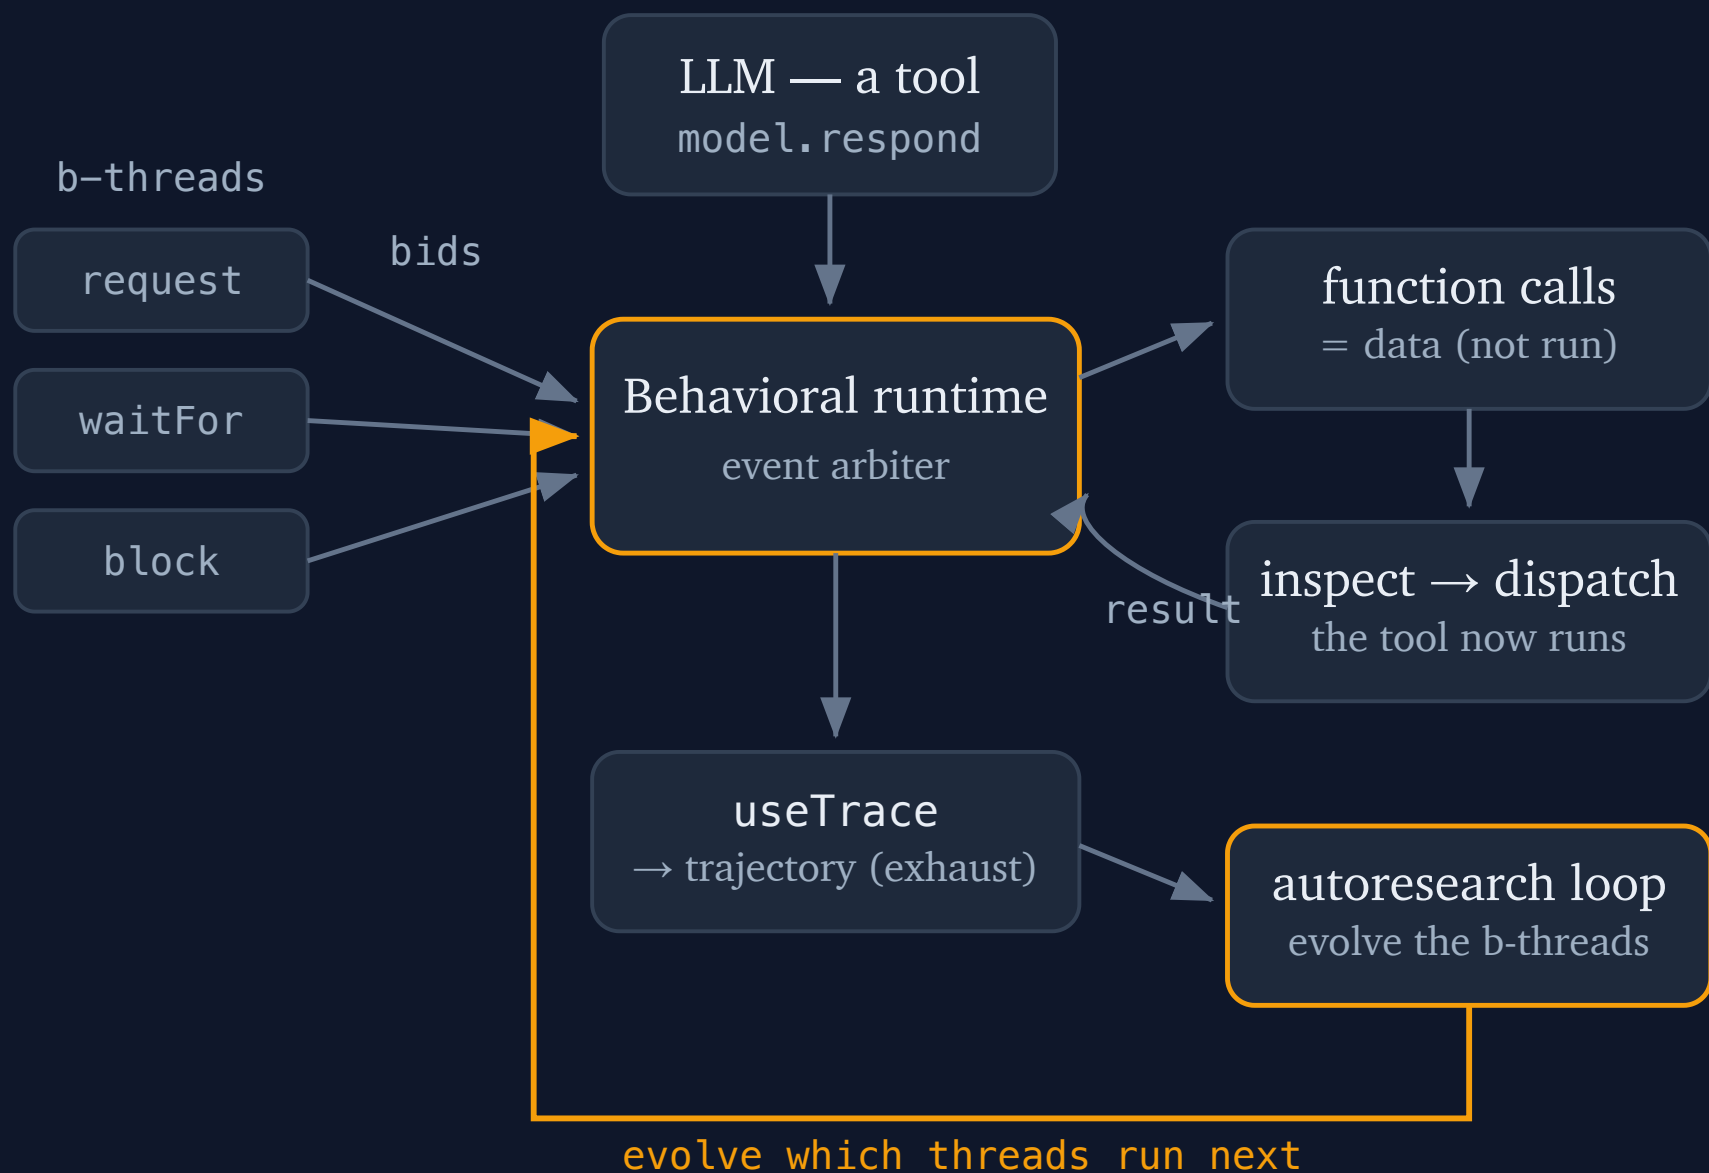

Ritiz Tambi · Veris AI

Own the loop it runs in.

Edward Irby · You.com

04 · THE FACTORY – an autonomous build loop

Own the factory.

Daria Shifrina · Obvious

connect repos → agents build → you approve

Rent less. Own more.
That's the whole game.

Which layer are you closest to owning?
